CAREER OBJECTIVE

Aspiring Computer science and engineering student specializing in IoT, seeking an opportunity to apply my technical knowledge and problem-solving skills in a challenging environment.

WORK EXPERIENCE

Intern – Cybersecurity (Dec 2025)

Pinnacle Labs

Attended a 1 month Virtual Internship at Pinnacle Labs as a Cybersecurity Intern where I Gained hands-on experience in networking, threats, and vulnerabilities and worked with mini- projects

Intern – UI-UX Design (Nov 2024)

Yangoos Technologies, Chennai

Attended a 1 month Offline Internship at Yangoos Technologies as a UI/UX designer where I designed user interfaces for web/mobile applications and created wireframes, prototypes, and user flows which helped me to collaborate with developers to ensure accurate implementation of UI designs.

Bootcamp On Drone Technology • Workshop (Nov 2024)

Saveetha Engineering College With IIT Kurnool, Chennai

Attended a five day bootcamp on Drone Technology organized by the Indian Institute of Information Technology Design and Manufacturing Kurnool and Saveetha Engineering College. It helped me to design, develop and operate a drone efficiently.

EDUCATION

B.E, Computer Science Engineering W/s Internet Of Things. (2024 - 2028)

Saveetha Engineering College

Senior Secondary (XII), Tamil Nadu State Board (2024)

PCBM

Nav Bharath Vidyalaya Matriculation Higher Secondary School

Percentage: 86.50%

Secondary (X), Tamil Nadu State Board (2022)

Jawaharlal Nehru Vidyalaya Matriculation Higher Secondary School

Percentage: 90.00%

TRAININGS / CERTIFICATIONS

Google Cybersecurity Professional Certificate

Feb 2026

UX Design For Web Developers

May 2025

Computer On Office Automation (COA)

Sep 2022 - Feb 2023

Practical IoT Security and Penetration testing

Feb 2026

Computer Architecture And Computer Organization Masterclass

Apr 2025

Senior Grade Typewriting – English

Jan 2022 - Aug 2022

PROJECTS

Packet Sniffer using Python

Dec 2025

Built a packet sniffer tool using Python and Scapy for capturing and analyzing network packets which helps to visualize live data flow, inspect protocols and understand network security basics

Text encryption tool

Dec 2025

Developed a encryption tool that encrypts and ecrypts messages using multiple cryptographic algorithms

Forest fire detection using Iot

Mar 2024 - Apr 2024

Presented the project "Forest Fire Detection using IoT" at the Veetuku Oru Vignani district-level science exhibition. The system monitored temperature and smoke to trigger early alerts. This opportunity enhanced my innovation, technical, and presentation skills.

SKILLS

- Python
 - Figma
 - Typing
 - HTML
- CSS
 - JavaScript
 - Cybersecurity
 - GitHub
- THM Player
 - UI & UX Design
 - Linux
 - Wireshark

EXTRA CURRICULAR ACTIVITIES

- **Ideathons**

Won 1st place in an app development ideathon for presenting an innovative solution. Showcased strong teamwork, creativity, and technical execution.

Won 7th place in a 8 hrs CTF held at VIT Chennai
- **Open-Source Contributions**

Contributed to GitHub repositories by fixing bugs and enhancing features. Gained hands-on experience in collaborative development and version control.
- **Tech Clubs**

Secretary of the Microsoft Club, Saveetha Engineering College

Member of the Tech Society at Saveetha Engineering College.

Active participation in coding events, tech talks, and development activities.
